Coming for Grades K-1!

Meeting the Needs of Our Youngest Students

Start Their Spanish Learning Journey Off Right!

BeeReaders Español is pleased to announce the addition of content for our youngest learners in grades K-1 as part of our engaging and exciting supplemental Spanish literacy program for Spanish-speaking students!

From Phonics and Picture books to Decodable books and Cross-curricular Read alouds, we have our emergent and beginner-level students covered!

Poems, rhymes, and songs make learning fun and engaging within our unique digital learning experience. But it doesn't end there...

Specially developed reading challenges, called Desafíos, make reading a fun learning journey. Students will be able to hear questions aloud and be able to respond in different ways including selecting images or single words.

Students want to connect and engage while building their reading comprehension skills using adaptive learning in a fun, game-like environment.

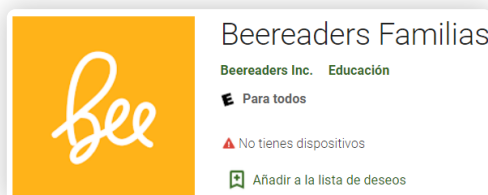

Students can learn no matter where they are, online or offline, desktop or mobile. **No internet? No problem.**

*New Adventures Await
Just Around the Corner*

As new texts are added, they are visible in the Novedades section and ready to be discovered!

Family App keeps parents/guardians involved in their student's reading progress.
