

OZARIA

Computer Science that Captivates

GRADES 4-12 | WEB-BASED | GOOGLE CLASSROOM

FULL INTRO TO CS CURRICULUM

Ozaria.com

Ozaria is a computer science program and an adventure game in which students master the lost magic of coding to save their world.

Flexible Standards Aligned Curriculum

- Turnkey lesson plans, rubrics, & extension activities
- Designed to meet all middle school CSTA standards
- Suited for any class setting or teaching style

Actionable Insights

- Intuitive teacher & administrator dashboards
- Track student progress at a glance
- Control student pacing with content locking

Authentic Learning Experiences & Skills

- Text-based programming with Python & JavaScript
- Critical thinking, persistence, & collaboration
- Real world and cross-curricular connections

Immersive Lessons & Assessments

- Concepts taught through storytelling
- In-level and on-demand tutorial messages
- Shareable creative capstone projects

“ Once again, your team has managed to accomplish the Holy Grail of Edutainment. In my opinion, as a 26 year veteran middle school educator, there is no more engaging resource for teaching coding. ”

Chris Beckwith

Technology Instructor
Reeds Brook Middle School

My students loved
CodeCombat last year, but
like Ozaria even better!
