

# CLIENT TESTIMONIAL STATEMENTS

## TESTIMONIAL STATEMENTS FROM CLIENTS

“You are the absolute BEST!!! Your service is a HUGE reason I like working with your company!!!! There are so many details to consider with online schooling. I have to schedule classes, order courses, inventory books, monitor progress, record grades, schedule tutoring, etc., and I don't know what I would do without you and your awesome attention to detail. You always have my back when I make a mistake and are incredibly patient with me.

**- Margie Fisher, Bald Eagle Area School District**

“I like the content and progression of the material. It has many positive elements. I have used many online curriculums throughout my 17 years, and I'm happy with Lincoln's content, website, and difficulty level.”

**- Rural Virtual Academy Parent**

“We are incredibly thrilled with the experience Lincoln Learning Solutions has delivered. The ease of navigation for both teacher, student and district has been impeccable, particularly in the early elementary age group. When early elementary learners begin the journey online, it can often prove to be a major learning curve. With Lincoln, you can see the focus developers have on the students they serve.”

**- Diana Scott, Iron Mountain Public Schools**

“Thank you to all of you for your immediate help. Two things that I want to mention to all of you. First, every single time I reach out to any of you, there is a fast and friendly response. That is just unheard of these days, and I appreciate your willingness to always help me. Second, I have reached out to you year to year, and it has been the same people that oversee our account. That is also unheard of because turnover in most places is rampant!!! I greatly appreciate all of your help.”

**- Angela Welch, City Charter High School**
