LINCOLN
LEARNING

K-5 Elementary Curriculum

Designed for Student Success

Lincoln Empowered courses offer engaging, interactive virtual and hands-on activities written for students and designed for adult support. The curriculum includes core courses and a variety of electives. Captivating instructional videos and online educational games reinforce challenging concepts. Parents can make learning tactile by purchasing supplies and materials.

On-Demand Support

Content from Evan-Moor is infused throughout our elementary curriculum to provide additional opportunities for reading, practice, and engagement. Courses also include a printable Parent and Teacher Guide so that observers can support student learning. Our K-2 courses highlight social and emotional learning opportunities by linking adults directly to corresponding sections of our Guide to Social and Emotional Learning.
