Speaking and Listening Support

With Drawp for School, students can record spoken answers or ask additional questions. Great for the speaking and listening standards!

Verbal Instruction

Educators can add oral instructions, translations, or additional verbal scaffolding with Drawp for School's exclusive voice sticker technology.

Creative Expression

Let students' (and your) creativity shine through with Drawp for School's extensive drawing tools. Perfect for promoting self-expression and bringing creativity into more aspects of the classroom.

Writing Tools

Not only can students answer questions and fill in the blanks, with Drawp for School's text stickers they will be able to write additional questions and thoughts and educators can respond quickly!

A Variety of Resource Options

Import your own curriculum from your devices, Google Drive, Microsoft OneDrive, or Dropbox or use some of Drawp for School's ready-made, standards-based curriculum.

Easy and Safe Sharing

Share individual examples or collections of student work and data with families, colleagues, and administration without the need for an email address.

Pre-recorded Audio & Text-to-Speech Support

Drawp for School's Scaffolding Tool provides standards-based questions and sentence frames in both English and Spanish text and speech (more languages coming soon!) for easy formative assessments and checks for understanding.

Simplify Your Workflow

With Drawp for School, quick and easy sharing allows educators and students to quickly work together in and out of the classroom with real-time sharing!

Safely Stored in the Cloud

Drawp for School takes everyone's privacy very seriously. We are FERPA, COPPA, and CSPC certified and are the only solution that does not require student or family email addresses.
