

Triangulation of Assessment with SpacesEDU

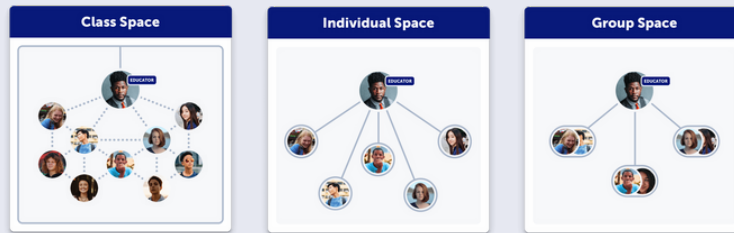

SpacesEDU's flexible **learning environments**, paired with the ability to create Posts and provide ongoing **feedback** using a variety of **media** types, optimizes learning, reflection, revision, and assessment as a whole. Teachers can confidently collect evidence of learning over time while also having a digital space that supports a variety of assessment types.

Comment...

- ✓ Create an Individual Space for Student-Led Conferences
- ✓ Filter the Proficiency Report by student and engage in 1:1 conversations about learning
- ✓ Record group or partner interviews with audio or video
- ✓ Promote peer-feedback in the Group and Class Space with ongoing comments on Posts
- ✓ Have students keep an ongoing journal in an Individual Space

- ✓ Record collaborative working sessions with audio or video
- ✓ Create an Individual Space just for anecdotal notes; keep this space hidden from students and families
- ✓ Create a Goal Setting Individual Space
- ✓ Pair Group or Class Space interactions with competency-based checklists

- ✓ Students can submit products from files on their device, Google Drive, or Microsoft OneDrive
- ✓ Students can create "on-the-spot" products using the Camera or Audio tools
- ✓ The overall portfolio is a product!
