

Efficacy Study Results 2023

Carmen Larsen
Director of Learning, Holy Spirit Catholic School Division

Although [SpacesEDU] is our reporting tool, it has been a catalyst for deeper conversations about what quality assessment looks like, how we can further engage our students in their own learning as well as communicate more effectively with parents about their child's learning.

Educator, SD46

[SpacesEDU] takes our learning beyond the classroom, and lets us share our experiences, our learning, and our assessment/reflections in vivid detail. I also love knowing that my students will be able to keep building on their portfolios for years to come, which gives me even more incentive to capture their learning meaningfully.

Family Comments

“ I really enjoy SpacesEDU. I like a real time look at what is happening at school because it helps to engage with my child about their day. Not all parents have time to stay updated with their kids' learning day to day and Spaces makes this possible.
