Sanako Connect is the perfect live online language lab

Saves and Optimizes Teachers' Time

Sanako Connect is a real time saver for language educators. If you are using different apps and tools like Quizlet for vocabulary tests and flashcards, Kahoot for multiple choice questions and Audacity or Vocaroo for collecting students' recordings, you will love Sanako Connect as it lets you to do all those things in one software tool.

Hassle-free for Your School IT

Sanako Connect is easy to manage and hassle-free for the school IT department because it's a scalable browser-based solution with concurrent user licensing. Usable at a class level, at a teacher level, at a school level, or even at a district level. You can start with one class and scale it when more teachers adopt the system in their classes.

Accessible from Any Device

Sanako Connect is accessible from anywhere using any combination of devices and operating systems (Windows, Mac, Chrome), including laptops, Chromebooks, tablets, and smartphones. It's super-fast to use because your students do not need any login details as they join via a unique web-link or QR code. All your lesson files and materials are stored in a secure AWS cloud-based system with separate data locations for USA and Europe.

Teach Any Language

Sanako Connect can be used to teach any language and we support right-to-left and left-to-right writing systems. You can import your existing lesson materials or use the in-built content authoring tools to create interactive video tasks, speaking assessments, vocabulary tests,

flashcard decks, listening comprehension, multiple choice questions, model imitation, gap-fill exercises and much more.

Increase Speaking Time

Sanako Connect helps you and your students to work on the most difficult parts of language learning process: intonation, speaking and pronunciation skills. With Sanako Connect you can increase your students' speaking practice time up to 10X to what you can achieve with traditional teaching methods.

Sanako Connects best features for language educators

Live video and audio conversations and screen sharing

Set up students into pairs or groups for live discussion and role play activities

Perform whole class simultaneous speaking assessments

Self-marking exercises including gap-fill, translation tasks, flashcards, and multiple choice

Manage all your teaching resources, files, exercises, classes, students' submissions and feedback in one platform

Launch quick live activities with automated students' response collection such as group and pair discussion, listening comprehension, speaking practice, and image description

Create unlimited amount of classes to differentiate student groups and exercise access

Use your existing lesson resources or create exercises using Sanako Connects content authoring tools
Provide instant feedback to students both textually, orally or in live one-to-one video calls

Teachers within an organization can share exercises to reduce workload

Simultaneous and consecutive interpreting training with any video or audio file using two-track recorder

Voice Insert feature allows students to create gaps for their recordings in any video and audio file

Provide exact feedback for students' pronunciation with time-coded text and voice feedback

Live and asynchronous modes of operation in one easy to use tool

Teachers can record videos to be used as study resources or as a part of an asynchronous speaking or listening activity

Your students join the lessons by scanning a QR code or clicking unique lesson link

Quick lesson setup for teachers with just three steps: Create, Assign, Review

Students can also use their mobile phones to complete assignments

Embed YouTube videos or your own audio and video files as study resources

Control student activity in restricted Examination Mode

Native-like speech models in most modern languages and automated pronunciation grading

Secure cloud-platform that keeps students' data safe and is FERPA, COPPA and GDPR compliant

Works on any device and operating system requiring only internet access to operate

Ready-made workflow for World Languages AP® Exam practice using **Sanako Connect**
