

A CASE STUDY

THE FUTURE OF SPECIAL EDUCATION

THE JOURNEY INTO A NEW SPECIAL EDUCATION
MANAGEMENT ECOSYSTEM

WHY A NEED FOR CHANGE?

In a world of constant shifts and challenges, your Special Education Management system shouldn't be one of your worries. This SPED Cooperative was in need of a stable, collaborative, and data driven system that could handle the unique needs of their population.

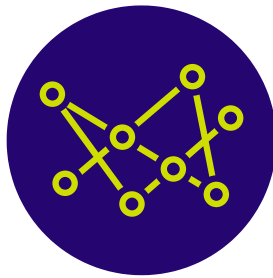

With funding riding on a compliant and accurate report of services and students, the cooperative desired a single platform with data monitoring and compliance checks throughout the software.

DATA DRIVEN

A need for clear and concise data across all school districts for the cooperative was critical to their own data goals.

As a result of implementing Bright SPED, the cooperative now has a better way to validate data and see areas of improvement.

UNIFIED PLATFORM

The cooperative's previous system was not meeting the unique needs and challenges of their population.

Bright SPED provided the district with a unified platform that is adaptable to their goals and efficiently managed Medicaid Billing.

COMPLIANCE FOCUSED

There was a need for a system that could help support their large case manager population in meeting state special education requirements in a way that best served their student population.

The built-in compliance checks throughout the Bright SPED system is helping ensure success.

CUSTOMER CENTERED

Given the specific challenges that the cooperative was facing, the administration was searching for a team that would walk along side them during the implementation and beyond.

The Bright SPED team was not only by their side, but quick to adjust for their individual needs.

THE STATISTICS

3 SCHOOL DISTRICTS

1 SPECIAL EDUCATION COOPERATIVE

70%

Prefer Bright SPED to their previous Special Education System.

81%

Overall satisfaction with Bright SPED's features, benefits, and customer support.

Bright SPED is innovative and very user friendly for our staff and families. The customizable options Bright SPED provides to our SPED Cooperative, has allowed us to track data efficiently and assist our department with an increase improvement for state compliance. The embedded progress monitoring tools offers our parents understandable visuals to share the progress on IEP goals and objectives for their student. Bright SPED is reliable and their response to support request is stellar. As the Executive Director of SPED, I am grateful for our partnership with Bright SPED.
