

scribo
by literatu

We are committed to fostering an inclusive and diverse educational environment. Scribo is designed to support and celebrate the diversity of all students, encompassing cultural, racial, gender, and able-bodied differences.

- Scribo provides a flexible and adaptive framework for writing tasks, enabling teachers to create writing tasks that reflect and respect the varied backgrounds and experiences of their students.
- Learning happens through each student's own writing, giving students agency to reflect themselves in their writing.
- With accessibility options tailored for diverse abilities, Scribo ensures that every student has the opportunity to express their unique perspectives and achieve their full potential.

Our goal is to empower educators to cultivate a classroom atmosphere where every voice is heard and valued.
