Everyone Works Together

The #1 driver of student learning and development is great feedback. We built Classkick to eliminate barriers and make sure students can get the help they need, when they need it.

How Does it Work?

1. Teachers Prep an Assignment

Teachers add drawings, text, images, audio, links, and videos to provide instruction or create assessments.

2. Students Work on Their Devices

In 1:1 or small group settings, students input drawings, text, images, or audio in response to teacher-created material.

3. Everyone Gives Feedback

Teachers provide individualized, real-time feedback or allow students to give each other anonymous feedback.
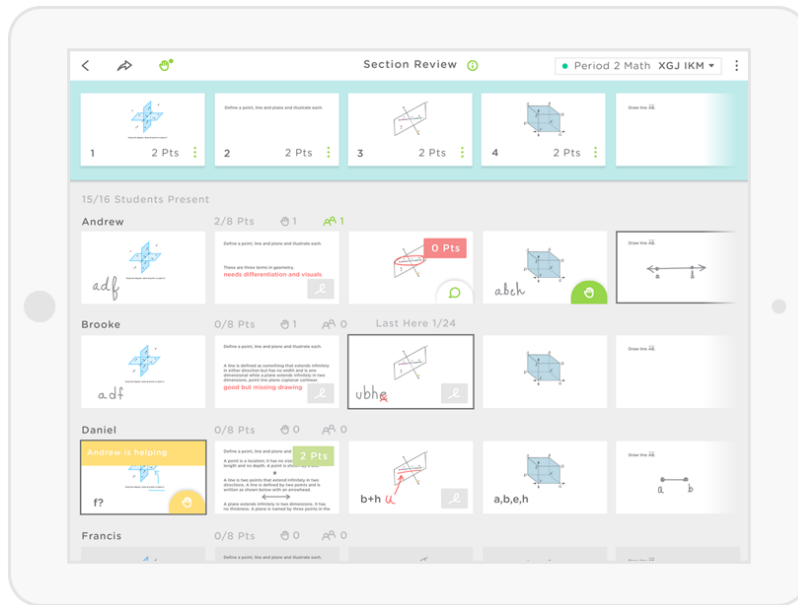

4. Teachers See it All

Teachers can see who needs help and how students are progressing through the assignment.

Your Whole Classroom in Real-Time

Track your students' progress as they work at their own pace.

Personalize Your Lessons

Create or customize your own content with an array of tools -- or transform an assignment from our library.

Give Help When Students Need It

Teachers and students help each other with digital hand raising.

Empower Student Development

Students demonstrate understanding in the ways that work best for them.

Formative Assessment, Anywhere

Never let learning be limited by location. Give individualized feedback while at home or on the go.

Classroom Success Stories

Changes the way her students perceive the classroom
