unruly[®] EDU

Use Splats as a STEM education tool to bring movement and collaboration to your classroom:

- ✿ Ten lesson plans aligned to NGSS, CSTA, and state PE standards
- ✿ Students collaborate to design and program their own games
- ✿ Great for classrooms, libraries, makerspaces, and gyms— anywhere learning happens!

UNRULINESS APPROVED BY ALL

♥ 'd by parents and educators alike.

I've been in education for 12 years and have yet to come across a product like Splats. It encourages kids (and adults!) to learn coding skills and encourages game design and active play. I think Unruly Studios will bring kinesthetic learning environments to classrooms all over the world at a time when students so desperately need more physical activity.
