Unleash student creativity

Book Creator is a simple tool for creating awesome digital books. Create your own teaching resources or have your students take the reins.

Combine **text, images, audio** and **video** to create:

- Interactive stories
- Digital portfolios
- Research journals
- Poetry books
- Science reports
- Instruction manuals
- 'About me' books
- Comic adventures

Book Creator sits atop my list of the best educational apps. I've used Book Creator with learners of all ages, from kindergarten to adults. Its simplicity is refreshing.

Tony Vincent, Learning in Hand

What are students making?

It doesn't matter what subject or grade level you're teaching, students can demonstrate their understanding by creating a book.

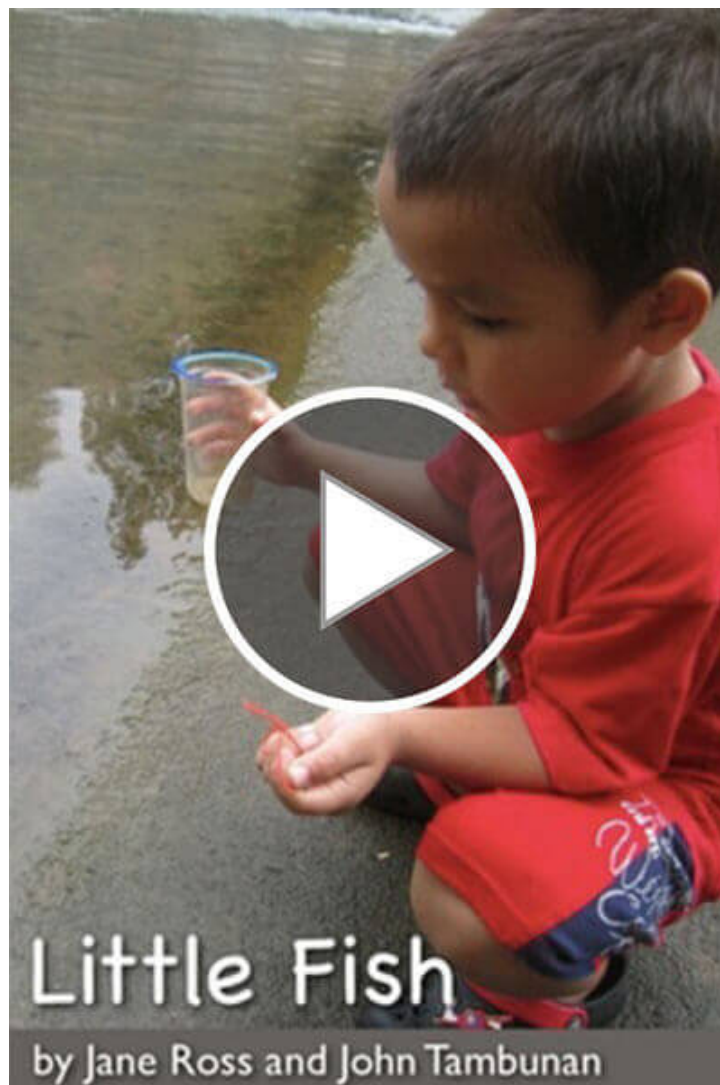

Here are some great examples:

Publish to an authentic audience

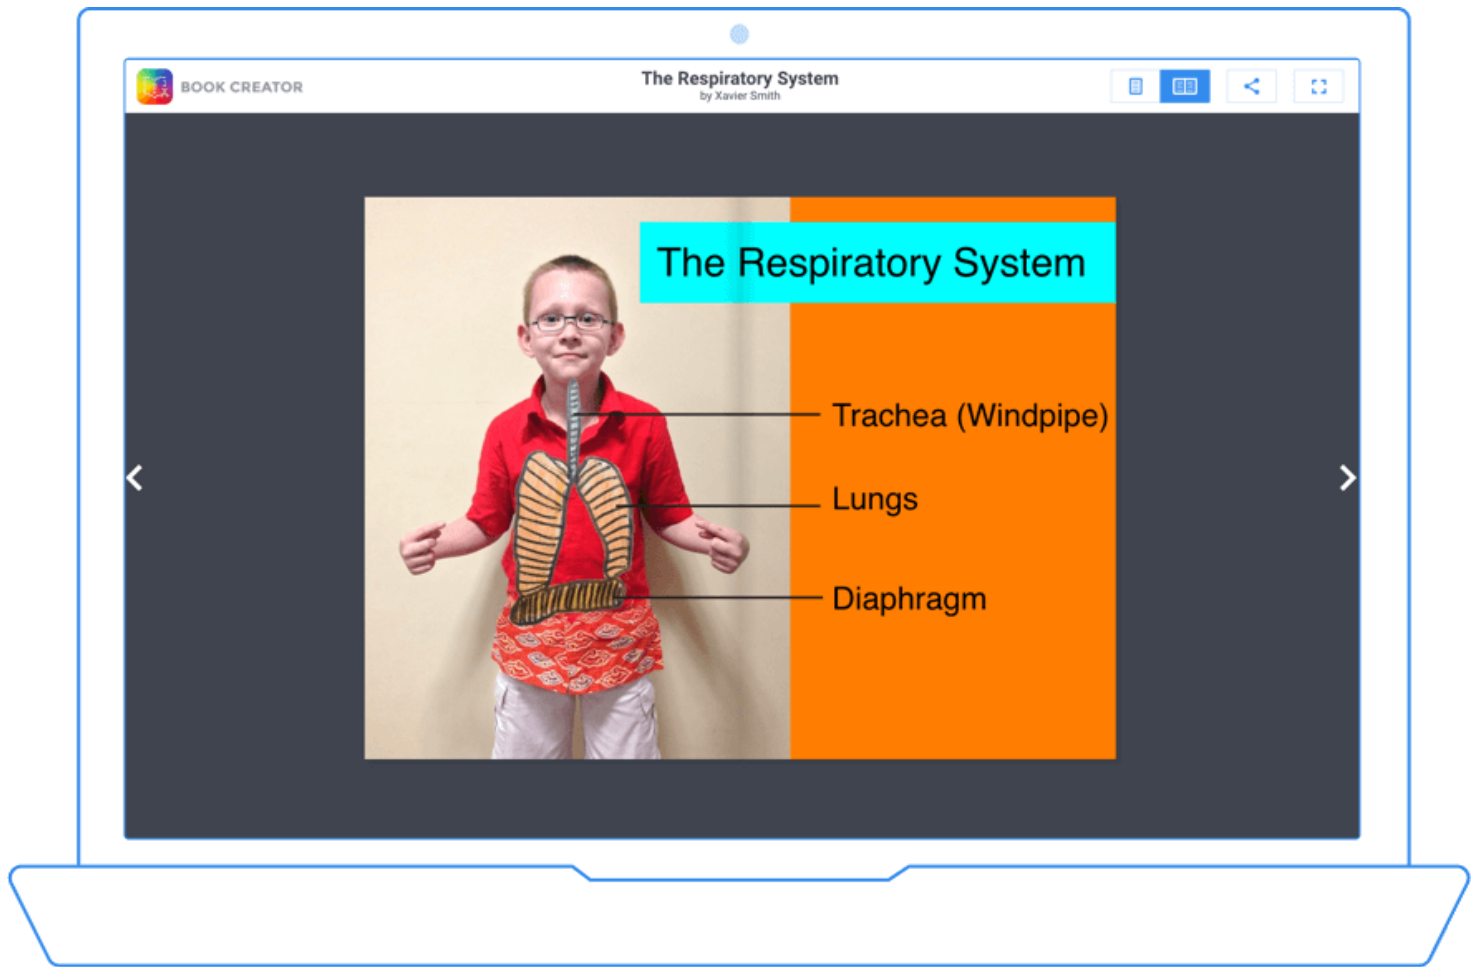

Writing a book is a fantastic way to make connections in learning. Students create a finished product, giving them a platform for sharing their learning with peers or others.

Case study: [Putting publishing into the hands of students \(/2013/09/putting-publishing-hands-students/\)](#).

My students are each creating a resource that will be available for download across the world. This is authentic learning at its best. My students have a voice.

Jane Ross, Digital Literacy Coach

Community

With over **550** dedicated **Book Creator Ambassadors** from all corners of the globe, we listen to and work with educators to make Book Creator as good as it can be.
