Finally an automated speaking test you can trust

[Would using an automated language speaking test save you time with student placement?](#)

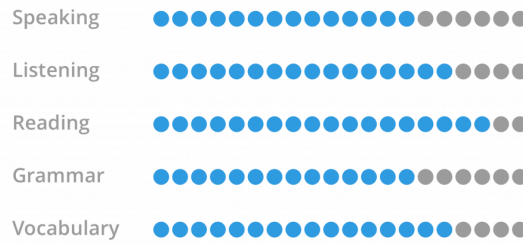

Placing incoming students in the right level each semester is tricky. The more reliable and accurate data you have, the better your placements will be.

TrueNorth was crafted by expert PhD psychometricians. It was calibrated against standard scales such as the CEFR and ACTFL. TrueNorth proficiency predictions accurately align with scores on the ACTFL scale from the Oral Proficiency Interview.

Full placement test powered by WebCAPE

SKILLS

Do you need a quick test that measures all aspects of language ability?

The TrueNorth Placement Test powered by WebCAPE is a fully automated language test that measures multiple language skills.

Tests are available in many languages, including English, Spanish, French, Italian, German, and Mandarin.
