

ADMINISTRATION

"TO ME, A LEADER IS SOMEONE WHO HOLDS HERSELF ACCOUNTABLE FOR FINDING POTENTIAL IN PEOPLE AND PROCESSES."
-BRENE BROWN

AXIOM Dashboard®

Administration can easily see the overall state of important school **data markers**. This includes **minors**, **majors**, **ODRs**, **grades**, **passes**, **accommodations reviewed**, **instructional practices used**, etc.

Grades

Administrators can see the grade distribution by **school**, **grade**, **subject** or **teacher**. Administrators can see when grades have been updated and how recently. Supports **communication** and **documentation** for communicating with teachers to provide feedback to students.

Accommodations

Administrators can quickly see what accommodations have been provided to teachers by **case managers** and which **teachers** have reviewed them.

Allows for easy communication to support teachers that have not reviewed accommodations.

Interventions

Administrators can easily see what students need teacher and **counselor interventions**. Easily see who has provided intervention and who is pending.

Allows for easy communication to support teachers that have not provided interventions.

Office Discipline Referrals (ODRs)

All **ODRs** are submitted by teachers online and includes supporting documentation of prior attempted teacher interventions. ODRs are **tracked** to support **Coordination Of Services Team (COST)** analysis or **Student Success Team (SST)** development of **Behavioral Intervention Plans (BIP)**.

Positive Behavioral Interventions and Support (PBIS)

Administrators can see the ratio of **positive to negative** communications to compare to the **4:1** ratio recommended by **PBIS**.

Technology Integration

Pull granular, two way integration with **School SIS** - such as Aeries. No need to double enter data in two systems.

Professional Development

Supports the implementation of change process, by allowing administrators to gather **process data**, **perception data**, and **student academic outcome data**. Administrators can quickly gather aggregate data from classroom walkthroughs to evaluate the fidelity of implementation of teacher professional development efforts.
