Zoombinis for the Classroom!

Teaching math in grades 3 to 8? Looking for a creative way to engage your students – especially during these challenged days of unpredictable learning conditions?

TERC and FableVision Learning are pleased to announce the launch of **Zoombinis** for the classroom.

- Based on the classic, award-winning **Zoombinis** game, but now with teacher dashboard & support
- **Research shows:** Improved computational thinking outside the game

With **robust teacher dashboards** to track student progress. Oh, and – while you’re tracking learning outcomes – **we predict your students will be telling you how much they love playing the games.**
