## Language and Culture Program

We offer a comprehensive Chinese and Spanish Language and Culture Program for your school through video conferencing software, with a China or Latin America-based teacher. Our entire program is aligned to the American Council on Teaching Foreign Languages (**ACTFL**) Foreign Language Readiness Standards. Delivering to **over 40,000 students**, this cost effective solution is perfect for schools that have struggled to attract and retain language teachers.

### How it works

A weekly 25-minute live lesson delivered from our professional teachers in Latin America or China. An additional 45 minutes of follow up activities are delivered by the classroom teachers using material provided by Meg, including resource sheets, flashcards, pronunciation videos and quizlets.

Assessment (written, aural and oral) is provided at the end of each 10 week module, while Reporting templates are provided that align with the national or state curriculum standards.

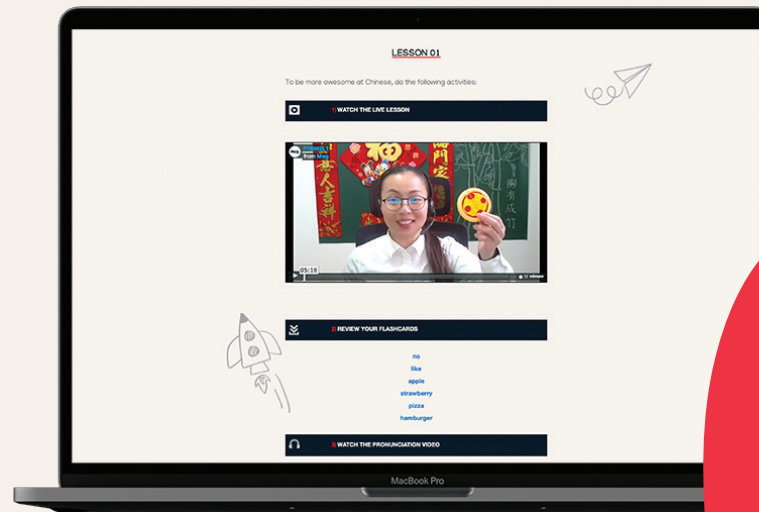

### Technology you need

You will need a computer with Projector or Interactive Whiteboard as the classroom is connected through video conferencing software.

We use pre-existing hardware within your school so no additional purchases are required.

**FREE**

Contact us for a live demonstration lesson from one of our teachers!
