

# VT On Demand

Providing unlimited access to highly effective tutoring to every student in your district.

Every student deserves the opportunity to succeed. But providing the help students need, when and where they need it most, can be a massive challenge for school systems. With VT On Demand, your students will have unlimited, real-time access to highly qualified experts and proven standards-based resources.

## Success starts with equitable access.

VT On Demand brings together a comprehensive suite of solutions that ensures all students have access to powerful learning support both in and out of the classroom.

### On-Demand Tutoring

- Unlimited, 24/7 tutoring via live chat across core K-12 subjects from subject-matter experts.
- Students and tutors collaborate on a shared whiteboard with integrated tools, including a document editor, scientific calculator, file sharing, and more.

### Self-Study Resources

- Adaptive diagnostics help students identify where they need to focus and provide a learning plan that serves as a personalized roadmap to improvement.
- Instructional videos and practice problems based on academic standards help students master challenging skills at their own pace.

### Always-On Enrichment

- Daily drop-in live classes, exclusive live StarCourses, and star-taught on-demand lessons engage and inspire students to dive deeper into their interests.
- Specially curated content ensures every student has learning options from archaeology to biology, coding to zoology, and more.
