Monitoring and Alerts

Trigger pertinent, timely information delivered to the right people for swift action and fast interventions

Student and Parent Portal

Live insights into student work and academic progress build trust and transparency with students and their families

Staff and Student Notifications

Develop an understanding of classroom trends and patterns, assess student risk, and build student accountability

Interactive Dashboards

Don't worry, we still love a good dashboard, but ours are customizable, with interactive reports to explore data

Go beyond static, inflexible reports and turn your school data into informed action. Make confident, strategic decisions with a highly-configurable Unified Data Platform from Schoolytics, and promote a data-driven culture at every level of your organization—from classroom instruction to annual reporting and everything in between.

Let's chat about combining your organizational data onto a Unified Data Platform for a no-risk trial period. Our team of data experts, trainers, and engineers will guide you every step of the way.
