

Every classroom could use some *extra 1:1 support.*

TutorMe partners with schools and districts to provide 24/7, on-demand online tutoring to students across all grade levels. We connect students with highly qualified tutors for 1:1 support, whenever and wherever they need it the most.

Schools and districts across the country trust TutorMe to support their students and teachers with access to tutoring that:

Increases equitable access to personalized, on-demand learning

Relieves educators of the pressures of being the sole provider of differentiated instruction

Supplements learning remediation and acceleration strategies

“

I have students upload their assignments to the Writing Lab during class. After reviewing what the tutors were pointing out, I realized the students needed a mini-lesson on run-on sentences! I can take the TutorMe tutors' feedback and see what additional resources I can share with my students.”

– ELA teacher at Prince George's County Public Schools, MD

“

TutorMe exceeded my expectations. This virtual learning solution is at the top of the class.”

– CODiE judge, on TutorMe as Best Overall Education Solution

“

When I use TutorMe, I not only get an answer, I get a clear understanding of what I'm asking. Every tutor has managed to teach me how to get the answer on my own.”

– Student

High-impact tutoring that's truly 1:1

The best way to help a student understand and grow is to connect them to a highly qualified tutor ready to give that student their undivided attention. Our tutors aren't juggling multiple sessions at once – they're providing tailored, 1:1 learning support that helps students master concepts, build self-confidence, and excel academically.

Top-notch tutors

Our thriving community of tutors includes thousands of certified teachers, professionals, advanced-degree holders, and other subject matter experts. All tutors must pass a criminal background check, knowledge assessment, and education verification before they begin working with your students.

A platform more human than tech

Our Lesson Space replicates the best parts of in-person learning – including live audio and video for face-to-face collaboration – while empowering students who feel more confident and productive in a virtual setting.

Asynchronous paper and essay review

In addition to live tutoring sessions, your students will have access to thousands of academic writing experts through our award-winning Writing Lab. Our community of writing tutors delivers prompt, detailed feedback on submissions within hours, helping students polish papers and hone their writing skills for future assignments.

Fully invested in your success

You'll be paired with a customer success manager who collaborates with stakeholders to define success metrics for your implementation. Unlimited technical support, regular success check-ins, turnkey marketing materials, PD and trainings, and other tools to drive usage are all included as part of your TutorMe partnership.

Analytics you can act on

Our Admin Dashboard gives you complete transparency on utilization data for live tutoring sessions and Writing Lab submissions. All completed sessions on the platform are recorded, archived, and available for your review.
