## Prodigy and Personalized Innovation at CICS West Belden

“We’re very much about encouraging teachers and kids to know how they learn best and then find ways to learn. Prodigy was another opportunity for them to build that skill in themselves.”

### Christy Krier

Director, Math and Science Education at Distinctive Schools  
Chicago, IL

## How Prodigy’s easy-to-use platform promoted math

### confidence in Clayton County

“Often our students aren’t as confident in math. I’m happy that through the use of Prodigy and the support of teachers, confidence is increasing.”

## How a Florida school supported math instruction after losing funding

## losing running

“In Prodigy, my low-performing students can compete with my high-performing students without tension or negative consequences, which causes them to perform better.”

### Krystal Gibson

5th Grade Teacher  
Escambia County, FL

## How Prodigy increased motivation and student performance in Floyd County

“What’s interesting is how much it's been used outside of school, not just inside the confines of the classroom... It's the students who want to do it. It's a motivating factor that the students love it.”

### Jennifer White

Math Specialist  
Floyd County, GA

## How Clifton Public Schools engages diverse learners with Prodigy Math Game

“Prodigy translates to a love of math. We’re using it because it’s adaptive, and they’re working at their level in their zone of proximal development”

**Erin Zmuda**

Supervisor of Mathematics, K-8  
Clifton, NJ
