Differentiated math learning for all

The *Assessments* tool allows you to deliver *Plans*, *Assignments*, or *Test Preps* — a perfect complement to summative and formative assessment activities and even standardized test prep. Best of all, students won't even know they're completing *Assessments*. It's all part of the adventure.

Student data, simplified

Get an at-a-glance look at student progress in your teacher dashboard or dive in deeper with one of our eight personalized reports.

Use Prodigy Math Game's real-time data to track student achievement, make important teaching decisions and support student learning at every point in the school year.

Here's what teachers are saying

"Prodigy Math Game is a game-changer in math! Kids remain engaged and want to play more. Many of them will play at home after school."

Daniela Sutton

4th grade teacher, Ohio

[Skip to Content](#)

I use Prodigy Math Game as an individualized intervention for my students. I love that I can assign different topics to specific students."

Melissa Corney

1st grade teacher, Virginia

"Students are more confident because of the extra practice they receive with Prodigy Math Game. My students typically score higher on math benchmarks because I'm able to differentiate instruction using the Prodigy reports!"

Kimberly Martin

2nd grade and math intervention teacher, Wisconsin
