

# The Missing Piece in Math Teaching

## Speak Agent Gives You the Tools to Implement Elementary Math Teaching Best Practices Using Academic Language

Math+Language™ K-5 is both a teaching tool and a platform for student engagement. It helps students to master key academic concepts and to develop critical math communication and reasoning skills. It adds listening, speaking, reading, writing, and visual supports that are missing pieces in this new world of distance learning. How? By seamlessly integrating multimodal academic language activities, real-world math stories, reading and writing scaffolds, and tools for students to create and share their own math problems. All Speak Agent content **aligns with your existing elementary math curriculum**. It's easy to implement and has been shown to be impactful with a dosage of as little as 30 minutes per week.

$$f(x) = x^n$$

## Program Support

Speak Agent supports ESL, Title I, dual-language, and multi-language math programs. It is optimized for English Learners and other marginalized learners. It uses [research-based, multimodal instructional strategies](#) to help students make connections to background knowledge, master complex concepts, and acquire the language needed for self-expression. Students improve their ability to communicate both verbally and in writing with precision and confidence.

### RESEARCH-BASED MATH STRATEGIES

How can students use Speak Agent to create math problems for classmates to solve? (Grades 3 & Up)
