

OUR MISSION

ENVISION LEARNING PARTNERS (ELP) EMPOWERS SCHOOL AND DISTRICT LEADERS TO BUILD A SUPPORTIVE CULTURE OF LEARNING BY DESIGNING SYSTEMS OF PERFORMANCE ASSESSMENT THAT ENCOURAGE STUDENTS AND TEACHERS TO LEARN AND GROW TOGETHER. WE BELIEVE THIS APPROACH CONTRIBUTES TO GREATER EQUITY IN EDUCATION—MAKING SURE EVERY STUDENT HAS REAL CHOICES AND POWER OVER THEIR OWN FUTURE.

ABOUT US

Envision Learning Partners was created in 2010 to bring Envision Schools' unique and effective approach to transforming student learning to schools and districts across the country. As Envision Education's consulting and training division, Envision Learning Partners works with a broad range of district and charter schools to increase the number of students that are truly prepared for success in college, career and life.

We offer training, tools and technology that make it possible to change schools' practices and results, and we partner closely with school and district leaders to transform the culture and school systems that support a higher level of college and career readiness. By the end of this school year, we will have worked with more than 800 teachers and leaders in more than 20 school networks, impacting the learning of at least 82,500 students.

School transformation is not an overnight process, so we prefer to collaborate with schools and districts over a minimum of one school year to provide:

- Summer training institute on teaching, learning and assessment practices for all teachers and leaders.
- Regular professional development and coaching throughout the school year for teachers and leaders to learn how to align curriculum and instruction to the student assessment system, structure ongoing professional development, and create a culture of revision to support student learning.
- Practical tools and technology that make it more manageable to adjust instruction and assessment.
- Ongoing support to help schools make the shift to teaching and measuring 21st Century Skills.

While the deepest, most sustainable results come from longer partnerships, we recognize that this is not feasible for all schools. As a result, we also offer time-limited professional development and coaching focused on such topics as performance assessment, aligned performance tasks, common rubrics, project-based learning, leadership and culture, and Common Core integration. Typically, these services are tailored specifically for your teachers and leaders based on a needs assessment.

OUR IMPACT

ELP delivers on the original promise of charter schools to help all schools innovate and improve.

ELP works in partnership with 70 schools and districts around the country.

Our partnerships are impacting 30,000 students annually.

ELP leadership impacts over 600 schools and 300,000 students annually.

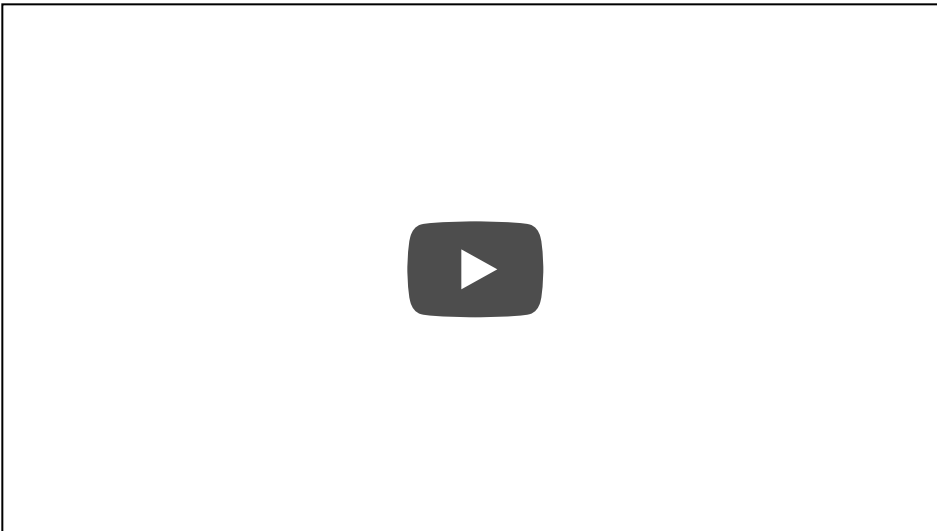

LAUSD students in our coaching partnership schools increased their ELA Common Core scores by 16%.

Envision Learning Partners (ELP) works with progressive teachers and leaders to transform the educational experience for students across the country. We help schools and districts develop engaged, well-prepared learners and create vibrant college-going school cultures.

WHO WE WORK WITH

Envision Learning Partners works with a broad range of schools, districts and charter school organizations to increase the number of students nationwide that are prepared for true success. We do this by partnering closely with school leaders to transform their cultures and practices to support a higher level of student learning that goes beyond the basics to the kinds of Deeper Learning skills that will equip them to earn college degrees, support families, contribute to their communities, and compete in the global economy.
