How It Works

Spend less time planning so you have more energy for your students. We help you get right to the good stuff.

1. Online educational resources: They're scattered all over the web. Who has time to search through everything to find the right ones?

(/)

- 2.** We scour the web to find top quality lesson plans, videos, presentations, activities, apps, and worksheets for you.

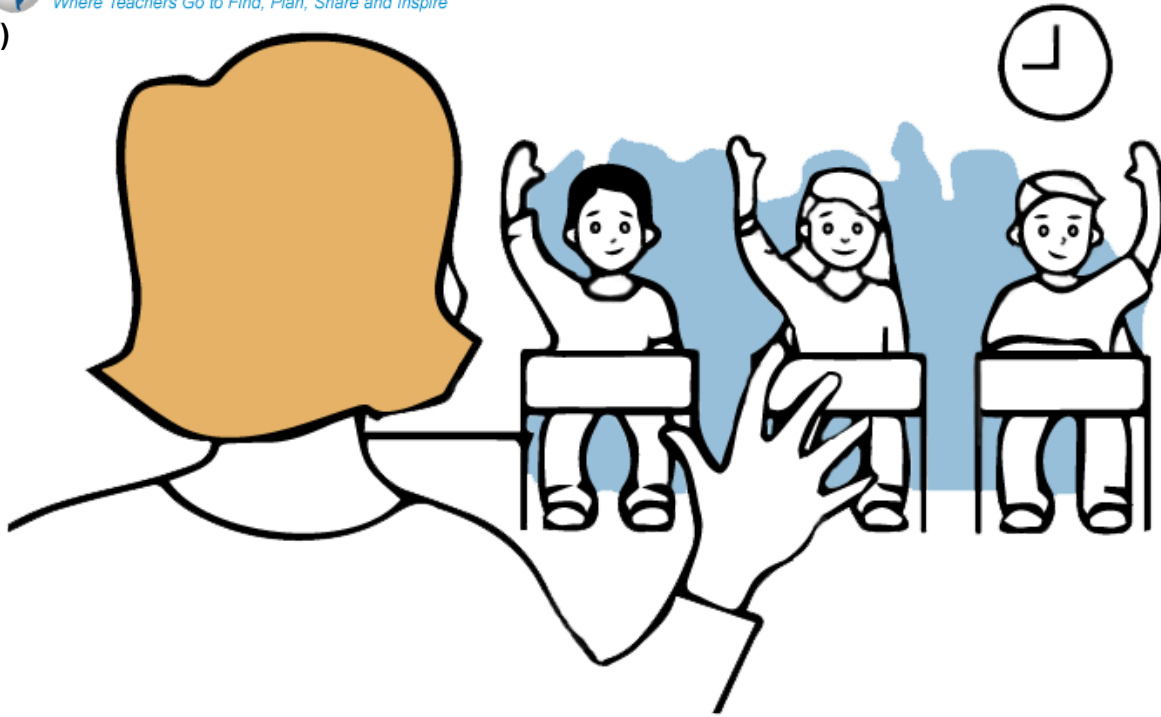

- 3.** Our credentialed teachers on staff rate and review every single resource according to our rigorous review process.

(/)

- 5.** When you want to find compelling lessons and get some new ideas, log in to Lesson Planet, search for exactly what you need, and find it in a snap.

(/)

6. Less time searching means more time for your students.

(/)

Our Review Process — Quality you can trust

Our credentialed teachers on staff:

- ✓ Follow stringent guidelines to rate and assess every resource
- ✓ Develop and use detailed rubrics for consistent quality assurance
- ✓ Give every resource we link to a thorough once-over
- ✓ Share tips and ideas based on 150 combined years in the classroom
- ✓ Participate in ongoing professional learning to stay on top of trends, standards, what matters for you

Our guidelines for reviews and ratings:
