What is LessonUp?

LessonUp is an award-winning online platform that makes it easy for teachers to create engaging lessons using video, images, interactive questions and quizzes. Differentiate to your students personal needs and let them join your lessons with their own device.

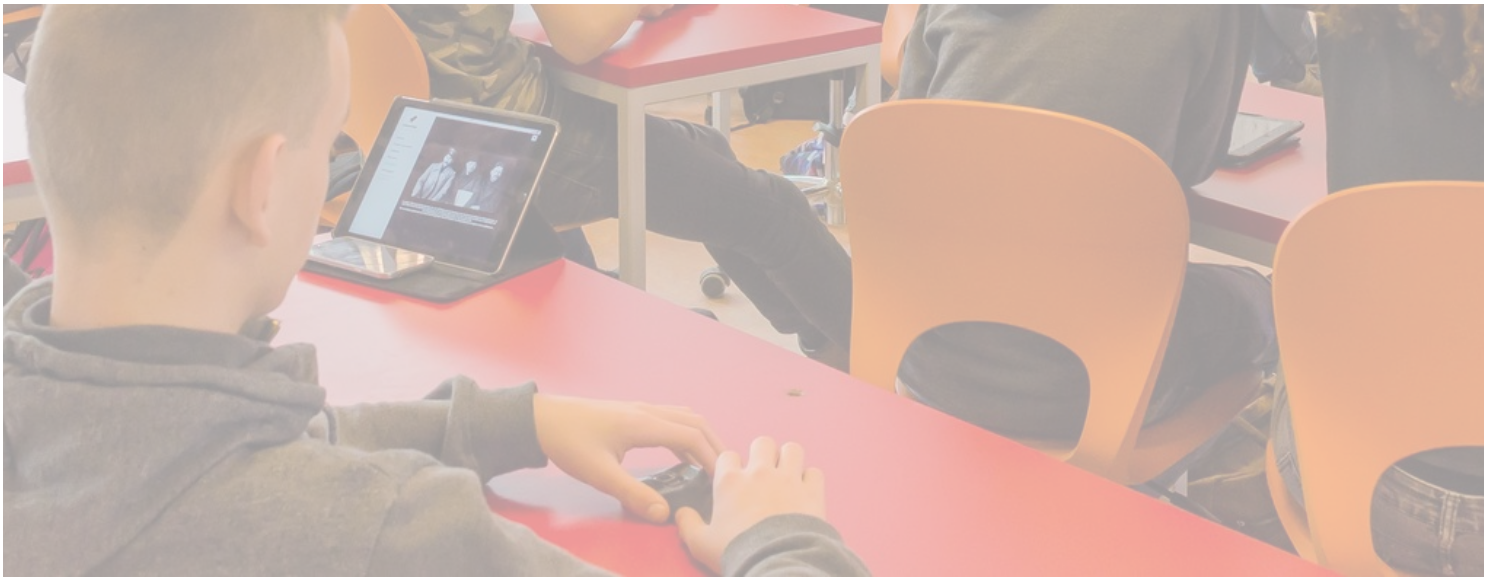

Interact with your students

For your students LessonUp is a highly motivating tool. It works on their smartphone, laptop or tablet.

They don't need to create an account and can join the quizzes right away.

Together with your class you can discuss the results immediately on the central screen or interactive whiteboard.

Interaction and variation

Students love interactivity. That's why, in LessonUp, we have a lot of different content types for you to use in your lessons.

Mindmap

Use a mindmap to activate your students

Drag & Drop

Challenge your students with drag and drop questions

Open questions

Let students formulate their own answers

Easily add video's

Use (interactive) video's in your class for variation

“It is a super easy system to use. I’m glad that I can work with LessonUp, it is a true asset to my lessons!”

- Dorien
Biology teacher

LessonUp isn't only designed for teachers, every student can get access to its own LessonUp account. LessonUp for students is developed especially for students who want to work with their teachers materials in their own pace. Independently, at home or at school.
