

Thoughtful Learning

Deep Understanding

- Research-based mathematics activities, worksheets and word problems
- Designed for critical thinking and conceptual understanding
- Encourages risk free discovery and curiosity
- Automatic or teacher-driven assignments to students
- Aligned to your curriculum, designed by curriculum experts
- Available in 40+ languages, set at the student level
- Offer professional development: Provide teachers with proven resources and ongoing assistance

CHOOSE A GRADE

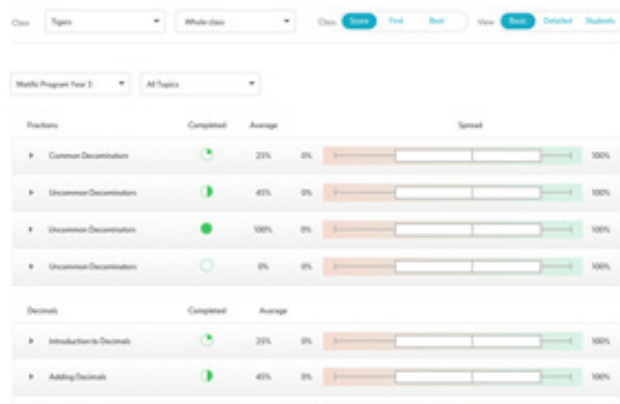

Hop on the Bus / Addition up to 10

Learning Objective: Practicing addition up to 10 in a concrete setting; understanding the concept of incrementing a quantity and how this is related to the addition operation. **Methodology:** A school bus picks up children on the way to school. Learners are required to count how many passengers board the bus at each stop and infer the total number of...

Suggested Ways to Use Matific in the Classroom

Assign Work and Track Progress

ASSIGN WORK

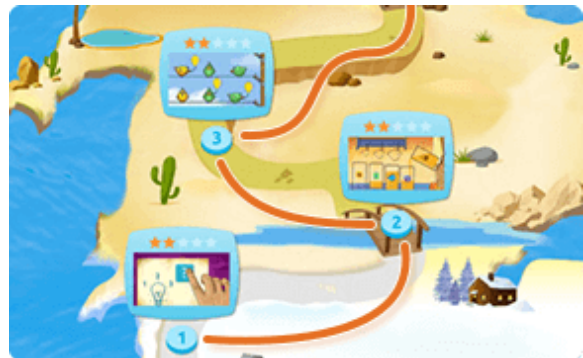

Choose the most relevant work for your students, and assign this work to your students.

TRACK PROGRESS

Track your students completion and performance with our real time and automated reports.

Personalized Pace

Each student will receive a digital path way, which contains all the activities for their grade level.

Students can simply log in, and complete the work in their BONUS path at their own pace, as well as any specific work you have chosen for them.

Why Matific?

Here are few reasons why Matific will help make Mathematics learning easier for teachers and students.

1

Matific is a collection of online Mathematics activities that teach students problem solving and critical thinking through discovery. We have been academically proven to improve test scores and to reduce anxiety.

2

We use game based principles to encourage students to learn through discovery, and we also have all the usual stuff schools may like such as worksheets, lesson plans, and of course real time reporting.

3

Matific's content is completely browsable and searchable, and you can even designate any content specifically for schoolwork or homework, and all our content is aligned to your local curriculum or textbook.

4

If you like, you can use the **Matific's** auto assign feature to assign 15 minutes of targeted and personalized work to your students each week, and then track their progress.

5

Most importantly, we've worked really hard to make sure students **LOVE Matific**.
