## What is **figure**?

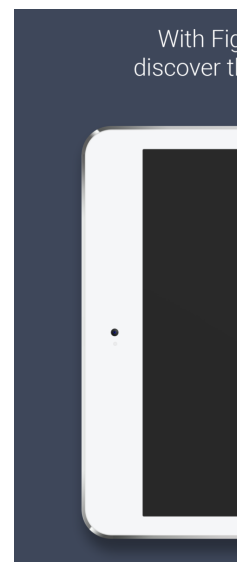

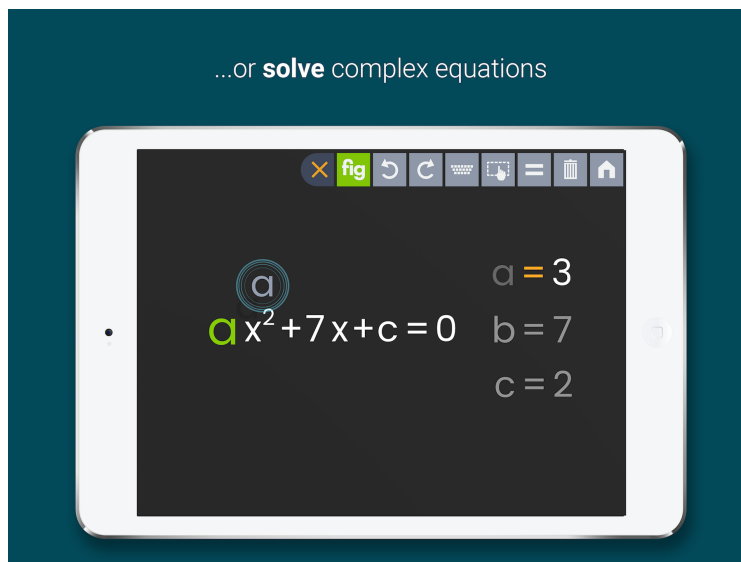

Figure is an interactive algebra tool that brings *21st century learning* to the classroom.

With drag-and-drop functionality, math comes to life in a way that stimulates student's right brain thinking. In this day and age, students are more excited by their technological devices than a pencil and paper—Figure brings algebra to the forefront of technology, reducing math anxiety and making math FUN! With Figure Math, teachers can lead a collaborative approach to all concepts ranging from Pre-Algebra, Algebra 1, Algebra 2, Physics Concepts, and even graphing trigonometric equations.
