

Student Financial Success Has Been Neglected

Billions are spent innovating academic and career resources to drive student success—but financial success has been sorely overlooked. Nearly 3 million students drop out of higher education every year for reasons related to finances. The financial aid process is hard, comprehension of the gravity of financial commitment is low, and debt without a degree is on the rise.

Meet the CampusLogic Student Financial Success Platform

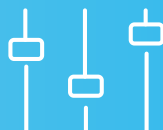

EASY

A self-guided journey moves students quickly, easily, and more confidently through the student finance journey with autonomy—leaving you with more time to do what you love most: meaningful work with students.

MOBILE

Mobile experiences empower 24/7 access to important documents and information right from students' phones, across the student finance lifecycle. That means fewer students in line at your office, reduced call volume, and easy to predict workloads.

PERSONALIZED

Proven Products in Use Nationwide At Hundreds of Institutions

Nearly 500 institutions—serving 3 million students—use CampusLogic to transform student financial success, ranging from community colleges, public universities, and private institutions.

All-Inclusive Pricing With No Hidden Costs

We firmly believe in all-inclusive pricing and complete transparency. The price you see is the price you pay—and includes unlimited staff and student users, unlimited storage, backup, and support.

Fast Implementation & Dedicated Customer Success Resources

Our dedicated, in-house Customer Success Managers guide customers through the onboarding process and help you optimize and maximize your products to get the best value possible.

World-Class Security and Integration

With our world-class security, government-grade data encryption, and robust web services that enable seamless integration with any SIS, you can ensure student data is well encrypted at all times.

CampusLogic empowers student financial success. Creators of the first—and only—comprehensive student financial success platform, we'll help you remove barriers, improve enrollment and retention, and drive student satisfaction. Let's talk >
