

ELEVATING EDUCATION
USING OUR WORLD-CLASS
SOFTWARE

RAISING THE BAR

Elevation Education Solutions is helping educators change the world. Our brilliant software provides educators an **Action Dashboard** that seamlessly unifies the efforts of **parents, counselors, teachers** and **administrators** by eliminating language and temporal **communication** and **language** barriers. Our innovative tools improve **two-way communication** and collaboration to improve student **academic** and **behavioral** outcomes.

CONNECTED

GRADUATION

Our mobile and desktop friendly platform is a **communication guru** for **schools, parents, students** and **teachers**. Our **revolutionary technology** aids in developing a strong **school-home partnership** by providing parents with important academic updates.

Smart technology offers parents the unique ability to **communicate** with teachers and staff in their **preferred language** by successfully detecting and **translating** any incoming message to **English**.

Parents, teachers, counselors and administrators can all initiate **communication** effortlessly using **text messages**, a technology that is universally accessible. Easier access encourages parents to contact their schools **regularly, remotely** and without **language barrier**.

More importantly, our software **identifies** students that require teacher **interventions** based on the number of **missing assignments, GPA, behaviors** or a combination of any **data points**, for an optimal graduation success rate.

BRIDGING COMMUNICATION GAPS

"When parents are involved at school, the performance of all the children at school, not just their own, tends to improve. The more comprehensive and well planned the partnership between school and home, the higher the student achievement." - Center for Law and Education
