

A co-learning space for student-led projects.

Instead of submitting final work to the teacher, students share work-in-progress to peers. Our student-centric workflow gives students a safe space to engage in cycles of feedback, reflection and iteration required of any real-world project. Spinndle captures data on each student's authentic learning process for quick intervention.

spinndle

RECOMMENDED FOR GRADES 3 -12

”

Spinndle helps students learn important organizational and time management skills, and allows for student self-pacing.

- CATHY COLLINS

TEACHER
SHARON MIDDLE SCHOOL
MA, USA

I love that I can see my students' work right in one place instead of having to go to different places to see information.

- STACY NOVAK

TEACHER
ST. MARY CATHOLIC SCHOOLS
WI, USA

Support learning as a process, not a product.
